COURSE OVERVIEW

education lifeskills

Initiative

SCH 213

COURSE DESCRIPTION

This course empowers young teens by helping them discover and nurture their motivation to become their best selves. Through understanding the causes and apathy, students will take ownership of their learning and personal development. The course equips students with coping strategies to address the roots of apathy, while fostering grit and resilience through self-discovery and positive thinking skills. Students will learn to set meaningful goals, identify their strengths, measure success, and ultimately find purpose and direction in their lives.

LEARNING OBJECTIVES & SKILL DEVELOPMENT

- Students will explore their level of motivation, strengths and weaknesses.
- Students will explore the concept of apathy, its origins, and consequences.
- Students will learn strategies to address apathy, and develop positive thinking skills.
- Students will take ownership of their learning and development, recognizing that teaching does not equal learning.
- Understand the positive connection between well-being, motivation, and its role in combating apathy.
- Students will learn about grit and resilience, and their value in working through challenges.
- Students will understand the importance and power of setting meaningful goals.

RECOMMENDED USES

- **Self-Directed**—Student does most of the course work independently with a parent or mentor.
- **Group**—To be completed at school in a group format with a facilitator.
- **Hybrid**—A combination of self directed learning and group instruction.
- **Blended Learning**—A combination of online and offline curriculum
